Field Trip

Join GMAS on a field Trip, August 30, to Bath Nature Preserve in Summit County. This preserve came about when Mr. Firestone passed away and donated his 800 acres to OSU. Community members and OSU students were concerned that the land – on which the aquifer that serves most of Bath Township – would be developed. In a compromise, OSU donated approximately 400 acres for a nature preserve. 190 bird species have been observed at the preserve. Following the birdwalk, we will eat at Fishers Café and Pub in Peninsula and then to the boardwalk at the Beaver Marsh in Cuyahoga National Park. More information below.
